I was told I could transfer this cruise, I thought, will definitely not be transferring the cruise, we will be going on the cruise! We looked into a few other companies, Reliant had more value and they did a really great job.”

The sales rep from Reliant said that if we spent more we would qualify to receive a cruise. We had never been on a cruise and it seemed very exciting to us. So we ended up spending a total of around \$9,200 to qualify for the cruise. We are planning on a Mexican Riviera cruise and we are very pleased with our experience.”

So I purchased the windows because of the cruise and it’s been a great experience.”

“We went to home depot and other companies to bid on doing some work on our home but they never seemed like a good fit. Then the sales man from Reliant Capital came along and they just seemed to have a lot more to offer than any other place I had shopped around. When we scheduled to have all of our windows replaced with Reliant Capitol and they gifted us a cruise we thought it was such a nice gesture and we became really excited about it. We are planning to do a lot of other work and because of our experience and the cruise we’ll definitely be using Reliant Capitol.”

“We were apparently at right place at the right time. We were shopping different companies to remodel our home and one company, Century One Builders, offered us a cruise that they were giving through in a certain time period. We decided to work with them because of the cruise and ended up having our whole kitchen remodeled. Now our biggest problem is do we take the cruise ourselves or are we going to give it to our daughter as a wedding present that’s coming up soon???”

"We purchased our windows and air conditioning with Reliant Capitol and they are very beautiful, they ended up giving us a cruise vacation for two but we can't use it because of my husband's health issues. Because of our experience we are going to purchase more windows and a door with Reliant Capitol and would recommend them to everyone."

-John & Neoma Stewart

The presentation that was given to us was pretty convincing, but we were considering another company. The work we needed done was around \$7500. The salesperson mentioned that the Co. owner enjoyed giving a cruise vacation for a contract of that amount. This made the deal seem even nicer since most contractors don't have those kind of offers. After checking out the company and the details of the cruise we decided that it was a terrific offer. I mention this to all my friends and they are impressed with the quality of the work and the type and conditions offered with these cruises. Even though we couldn't take advantage of the cruise, we were allowed to share it with someone who would appreciate it. We are giving it to my cousin and his wife who are dear friends of ours and love to travel.

-Joe Cortez

-Johnny & Becky Bowman

"We got half of our windows installed a little over a year ago from Reliant Capitol and they contacted us recently to do the remainder of the windows. Reliant was giving away a cruise if we purchased, but they only had so many so we decided to purchase to take advantage of the offer. We already had a cruise booked for July of 2012 and now we'll be able to take my parents with us. They just suffered a devastating blow from a recent tornado in Joplin MO and this will be a great way to lift their spirits."

-Jim Curran

"We were contacted by Reliant Capitol regarding the replacement of our windows. Although we did not receive any other quotes the cruise was the reason we choose to purchase the windows. Without the cruise we most likely would not have purchased. We just love the windows and look forward to our vacation."

-Laurie Bojorquez

"We purchased some doors on a house that we were remodeling and Reliant Capitol threw in the cruise certificate as part of a promotion they were running. They only had 8 of these things left so we were in the right place at the right time. Pretty cool to receive it. We looked into a few other companies, although I can't even remember their names, but Reliant had more value."
