"I've already mailed my cruise certificate in and I'm looking forward to it... My dad who is 84 has done a lot of work with Parker & Sons in the past. Charlie the sales rep said they only had a few certificates left and we jumped on the opportunity to take advantage of the offer."

"I'm excited to start planning my cruise. We want another couple to join us, so we are referring them to get a new AC unit with Parker & Son's."

Veronica Spear

"We have used Parker & Sons in the past so we did not look into other companies. Replacing our AC, we have put a lot of money into the pockets of Parker & Sons. I'm looking forward to taking advantage of the cruise certificate, after all the money I spent, it made the headache worth it."

"We received a few quotes to get 3 units installed in our home, my wife Betty has always wanted to go on an Alaskan cruise, and Parker & Sons was offering the cruise as a promotion. We were contacted by the cruise company and they told us the Alaskan was possible, we would just have to pay the additional fee's... We spent a lot of money so the cruise was really nice."

"We just bought a new AC unit from Parker & Son's and we're very happy with the service. At the end of the installation the head tech gave us our cruise certificate which didn't hurt, definitely justified the cost. My parents just retired so I'm going to give them the cruise as a gift."

Andrew Tritschler

"I've had a rough month, my air conditioning broke and my water heater broke. I looked into several other companies that were more and less expensive but Parker & Sons was offering the cruise and that was the incentive to go with them."

Sean Larca

"I was referral to Parker & Sons through Costco and received 3 additional quotes as well. Parker & Sons said they just started giving away the cruise certificate but they had a limited amount and it sounded like a great deal so I decided to purchase the \$5,000 dollar unit with them."
