

“We interviewed 6 companies to get a new furnace installed and ASI happened to be celebrating their Anniversary so they were giving away a cruise vacation. We decided with the cruise to get the furnace installed with ASI. After reading the materials I thought it was only good for Mexico so I was going to give it to my daughter, but the guy from ASI said we had many other options including the Caribbean, so we are definitely going to be using it ourselves!”

-Jacqueline Murphy

“My furnace quit and they had to red tag it, which means I had to buy a brand new one. I heard about a few different companies through various advertisements and got three quotes. My top 2 choices were ASI and Anderson. Anderson to me was the better choice so I went with them. They had a better presentation, better service and they had a cruise giveaway at the time. Anderson was also a little less expensive.”

-Patricia Millikin

ASI Solar offered us the cruise as a gift for purchasing the job through them, I believe the manufacturer supplied the cruise to ASI and we got one! We looked into a few other companies and ASI was not the cheapest, but they had a better total offer.”

-Cathy Avery

“We needed a new A/C unit, ours broke during the 106 degree heat in September. ASI had a program at the time that when we purchased a specific unit we’d receive a cruise for two. We are very happy with our experience.”

We looked into many other companies but ASI had the best cost, service and value with the cruise out of everyone we looked at. My co-worker also referred me to ASI because they said how great of a job they did. I don’t know if my co-worker received the cruise, but I’m going to keep it a secret!”

It was a package deal, so we went for it. ”

“I’m thinking of selling or renting out my house so I called ASI to see about installing an A/C unit and furnace. Part of the deal was ASI giving me a cruise certificate as a gift. That really helped my decision. I’m a little old lady and a single widow so the cruise was really nice, although I’m not sure who I’m going to bring. My A/C unit was installed a few days ago just in time for one of the hottest days of the year. The A/C unit works really well, and thanks to ASI I don’t have to post up in the mall or a movie theater all day to avoid the heat.”

-Barbara Uhls

“We called 3 different heating and air conditioning companies out to our house to give us a bid on purchasing a new unit. When it comes to pricing I’m one of those wheeling and dealing types, we are having our kitchen done and a few other projects. The 3 different companies offered us different incentives but Jason from ASI offered us something we couldn’t refuse. When I started negotiating price with Jason I asked him if he could drop the price. He then showed us a flyer and mentioned they had a cruise vacation that they could give us as a gift from the manufacturer. We thought, who wouldn’t want a cruise! So we purchased with ASI specifically because of the cruise.”

Jason Mathis, the technician from ASI, came out to the house and gave us a bid for a new unit. It seemed like a lot of money, but then he discussed the fact that they were giving out a cruise vacation certificate, we couldn’t believe it, we were shocked! We thought that sounded fantastic. The other companies we called had nothing to offer like that. The guy from ASI said he only had 6 left so we went over to their office and signed up to get the cruise. We can’t wait to take the cruise and we are just now waiting on our info!”

-Donald Flores

“I purchased a million dollar brand new A/C unit because mine went out after 30 years. Well at least it felt like it cost a million dollars. The saving grace was I called ASI because a family friend referred them and they’ve been in business for a long time, and their family owned. I just so happened to call when the manufacturer was rewarding a cruise as an incentive to purchase. I was so excited about this cruise coupon and I’ve already decided to take my cruise in November.”

-Margaret Brannigan

“Our AC & Heater unit went out and the first company we called was ASI. At the end of the presentation the salesman said they were giving away some cruise certificates and we qualified. He had talked me into a specific AC unit instead of repairing it as I had hoped to do. When the salesman mentioned the cruise I was flabbergasted. We were planning on calling a few other companies, but with the cruise offer we didn’t need to. My wife and I are both retired so this will be a great getaway.”
